

Continuing Education Units (CEUs)

#1 educational platform for Massage Schools, Students, and CEUs

Now Introducing Massage Prep’s CEUs platform for Schools & Students

It is a new day in Massage Therapy and in Massage Therapy education. We have seen a number of programs across the US face tough challenges to meet the needs of cost effective and efficient student training while providing the necessary platform, tools, and technology to both instructors and students to train and track accountability while having continuous profession development.

Schools are missing out on a great opportunity to support graduated LMTs with **Continuing Education** course offerings. With Massage Prep’s new platform, you can now offer CEUs, both online and onsite. It is valued to stay connected with your former students with scheduled onsite or self-paced online training. The platform provides the capabilities for instructors to effectively facilitate and manage your online and onsite CEU training.

“What a great way to maintain regular communications and promotions with your former students, now LMTs, by offering CEU classes and courses of your own. Show them that you care by offering valuable CEU program.” Marie Anthony

Offer your graduated LMTs an ongoing CEU program — *Simple as 1-2-3*

- 1) Choose courses and sign-up.** Our CEU program includes over 100 courses to choose from ranging from Massage Modalities to Body Mechanics, from Massage Assessment Planning to a Florida specific renewal bundle, and much more.
- 2) Study courses and pass the exams.** Our CEU courseware is comprehensive, intuitive, and resourceful including relevant and supportive study guides and quizzes to ensure knowing the material and useful in a LMT’s practice.
- 3) Transcripts automatically submitted to CE Broker.** Our CEU platform is fully automated with online access, easy-to-learn and effective training, along with tracking scores and transcripts everything that the CE Broker needs.

Benefits of having your own massage therapy CEU program

Online & Onsite	Enable Your Instructors	Track & Monitor	Interactive Solution	Increase Bottom Line
Schools can now offer ongoing online courses or coordinate onsite training for LMTs throughout the year at your own school. <i>Great for supporting your student Alumni network.</i>	Support your instructors to advance their career as a massage therapy educator or provider. “Train-the-Trainer” opportunities are available.	Administrative access and oversight can be centralized by HQ or decentralized by campus tracking and monitoring learning across the organization.	CEUs include Audio voiceovers, HD Videos & Images along with capabilities to access the training via Tablets and Smartphones makes learning fun and easy.	Offering CEUs to your former students taps in to a market that is perfect for your programs. Extend services to your Alumni network. Don’t let other CEU providers take this from you.
